

The 4th

Resilience Research and Education Promotion Consortium Symposium

# Toward the Realization of a Resilient Society with New Normal

## -Reflections brought about by the COVID-19 Pandemic-

A wide range of unanticipated social changes are occurring as a result of COVID-19. The need to appropriately anticipate/analyze these changes and adapt to them through swift decision-making has become more important than ever.

In this symposium, we will hear presentations on the technologies used in responding to the social

changes forced by COVID-19, the positive/negative insights gained from the technologies, and how to respond to large-scale disasters that may occur in the future even as the pandemic continues. We will have a multifaceted discussion on how to build a resilient society in the era of the new normal.

Date and Time

October 13, 2021 (Wed.) 1:30 pm- 4:40 pm (JST UTC+9)

Venue

Zoom Webinar

Language

Japanese with simultaneous interpretation into English

Admission Free  
Registration required

MC: Takashi NISHIDE (University of Tsukuba)
